What are the major ethical issues of the Coronavirus Pandemic? What is the day-to-day experience of frontline healthcare workers? Why are so many conspiracy theories emerging to explain the true cause of the Pandemic? “Health Jawns” is a new Health Humanities YouTube Channel where CSHH senior lecturer Chris Eagle interviews health experts, ethicists, and writers to get their unique perspectives on the past six months and what’s to come. Watch his interviews with Drs. Craig Klugman and Dhaval Desai on YouTube, then join us for an intimate Q&A with these experts on the frontlines of Covid treatment and policy.

**DR. CRAIG KLUGMAN**
