**EMORY**  
UNIVERSITY

**Center for the Study of  
Human Health**

Emory College of Arts and Sciences

# HLTH 364: EPIDEMIOLOGY OF OBESITY (4 CREDITS)

INSTRUCTOR: HELENA PACHÓN, PHD, MPH

Students will compare and contrast obesity patterns, predictors, and prevention and treatment strategies in Peru and the US.

Through a unique collaboration mode, Emory students will be matched with bilingual Nutrition and Dietetics undergraduate students from the host university, Universidad Peruana de Ciencias Aplicadas, to engage, experience and learn side-by-side.

The course will fulfill ONE of the following requirements:

- Translation Application for Human Health majors
- Elective for Human Health major with Epidemiology focus
- Global Health Challenges for Global Health, Culture, & Society minor
- Social-Cultural Perspectives for Nutrition Science minor
- Elective for the joint Human Health/Economics major

## CULTURAL ACTIVITIES

**CULTURAL EXCURSIONS AROUND LIMA  
INCLUDE TOURING CARAL AND  
HUACACHINA OASIS AND SWIMMING WITH  
SEA LIONS NEAR PALOMINO ISLANDS**
